Ensor Foundation Research Laboratory  
and  
Continuing Education Service

William S. Hall Psychiatric Institute  
of the  
South Carolina  
Department of Mental Health  
Columbia, South Carolina 29202

*Mrs. Inez Nolan Fripp*

## ENSOR

### RESEARCH FOUNDATION

The Ensor Research Foundation memorializes Joshua F. Ensor, M.D., father of Mrs. Grace E. Brown. Dr. Ensor became superintendent of the State Asylum (South Carolina State Hospital) at the insistence of Miss Dorothea Lynde Dix in 1870 and served in this capacity until 1878.

Dr. Ensor was a truly outstanding superintendent whose administration resulted in extensive physical renovation and improvements and a progressive program for the care and treatment of his patients.

The Ensor Research Foundation was established in 1942 under the will of Mrs. Grace E. Brown. The purpose of the Foundation, as stated in the will, is to operate a research laboratory for the study of mental diseases. The original value of the bequest was \$60,000 which was augmented by the State of South Carolina in 1944 when it added \$60,000 to the Foundation. By and large, the earnings of this trust have been allowed to accumulate until sufficient principal existed to support meaningful research in mental illness. The Ensor Foundation Research Laboratory was inaugurated in January 1971 as a part of William S. Hall Psychiatric Institute. The laboratory was constructed and equipped in its entirety by Ensor Research Foundation funds. The current value of this Foundation is estimated at \$275,000.

COMPLICATIONS WITH  
PSYCHOACTIVE DRUGS

The Forum

William S. Hall Psychiatric Institute

October 9, 1973

9:30 a.m.

Greetings - William S. Hall, M.D.  
State Commissioner of  
Mental Health

Introduction of Speaker:  
Julian H. Fincher, Ph.D.  
Dean, College of Pharmacy  
University of South Carolina
